PROFILE INFO

IT Infrastructure & Cloud Engineer with 5+ years of experience in Windows Server management, Active Directory, Azure AD, virtualization, Ubuntu administration, and firewall security. Skilled in AWS services, Fortinet/Sophos security, GitHub automation, and AI-based internal website deployment. Proven ability to reduce downtime, optimize infra performance, and deliver secure, scalable IT solutions across cloud and on-prem environments.

CORE TECHNICAL SKILLS

Cloud Platforms:

- AWS (EC2, VPC, IAM, S3, Route53), Azure AD, Google Cloud, P-Cloud, Zoho WorkDrive

Servers & Systems:

- Windows Server 2008/2012/2016, DNS, DHCP, GPO, Ubuntu Server, Linux Security

Networking:

- Cisco/D-Link routers & switches, VLAN, VPN, IP Surveillance, Access Points

Security:

- Fortinet Firewall, Sophos Firewall, Seqrite Endpoint, Hardening & Compliance

Virtualization:

- VMware, Hyper-V, Oracle VirtualBox

Web & Automation:

- AI-based Website Designing (Lovable), GitHub Integrations, Admin Center, Outlook

Enterprise Applications:

- SAP, AutoCAD, Revit, Tally Prime

WORK EXPERIENCE

IT MANAGER — YMS CONSULTING ENGINEERS

Sep 2021 – Present

- Managed Windows Server, AD, DNS/DHCP & enterprise infra for 100+ users.
- Implemented Fortinet & Sophos firewall policies improving security & compliance.
- Oversaw cloud environments including P-Cloud, M365 & Azure AD provisioning.
- Designed and maintained AI-based internal websites using Lovable, GitHub & hosting tools.
- Handled routers, switches, VPNs, ensuring stable and secure connectivity.
- Managed Ubuntu servers for internal hosting, application support & automation tasks.
- Administered Zoho WorkDrive access, storage management, sync & collaboration tools.
- Reduced downtime by 30% through proactive monitoring & rapid issue resolution.
- Managed IT assets, vendor relations & security implementations.

IT SUPPORT ENGINEER — MEGHA COMPUSOFT

Feb 2019 – Aug 2021

- Delivered hardware, software & network support across multi-user setups.
- Installed & managed VMware, Hyper-V & VirtualBox virtualization systems.
- Managed Microsoft Admin Center, user provisioning & access control.
- Supported SAP, AutoCAD, Revit, Tally Prime & enterprise apps.
- Provided onsite support for GSCALTEX INDIA Pvt. Ltd.
- Streamlined user & cloud account operations across Windows & Azure platforms.

KEY ACHIEVEMENTS

- Reduced overall downtime by 30% via proactive monitoring & fixes.
- Successfully migrated multiple systems to cloud platforms (AWS, P-Cloud, M365).
- Enhanced security through optimized firewall & endpoint protection policies.
- Automated routine IT tasks reducing team workload by 25%.
- Delivered AI-based website designs improving internal process efficiency.
